

## Science Activities for this week

### Tuesday May 26th:

1--**Read** the list of Physical Properties (vocabulary words. These are the words we discussed during the zoom meeting -today (Tuesday). Pay attention to the picture.

2--**Log on to Razkids.com** Read the book:  
*The Three Little Pigs* (My assignments)

Pay attention to the details in the story: Each Pig builds a house. Think about the materials the pigs use to build their own house.

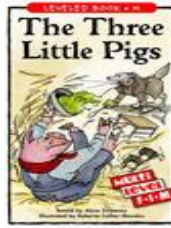

### **Wednesday: May 27<sup>th</sup>**

**Reread the story of the Three Little Pigs.**

Then complete the the assignment below. We will discuss it on Thursday, during our Zoom meeting. Please be ready to participate in the discussion.

# Properties of Matter

Razkids (My Assignments)

House of straw

First pig

House of sticks

second pig

House of bricks

third pig 3

In the story of the Three Pigs, the wolf blows down the house of the first pig and the second pig. Why was this an easy job for the wolf? But he could not blow down the house of the third pig. Why was it difficult to blow down the last house?

Your job is to examine (or carefully look at) the “properties” of

1. Straw

2. A stick

3. a brick

You adjectives from the sheet to help you describe straw, sticks, and bricks. You may use other adjectives you know.

This is straw. Look  it closely.

Describe the "properties" of straw by appearance

How does it look?

In science, a property is anything you can describe.

In your opinion, how did the Third Pig think like a scientist before building his house?

**Think about what you know (or what you have learned)** and use details from the story to answer the question. Then draw a picture adding labels, and captions to help support your answer.
