

What's New in 202?

Week of May 11, 2010

Zoon Virtual Conferencing

Thank you to all the students for their participation in the zoom meetings.
And a Big thank you to the parents for the great support!

Completed work (Assignments)

Just a friendly reminder:

These are the assignments students were supposed to complete from last week:

Week of May 4th:

1 reading assignment (from the list of reading passages I emailed—main idea/topic).

1 social studies assignment (the one about "needs," and "wants") →

1 science (from mysterscience.com.....Rocks, Sand and Erosion)

1 mathematics (from the list of addition problems "breaking apart:")

1 word work (the 2 sentences which included proper nouns)

And the assigned Razkids book (Basics of Economics)

Remember, students can complete more (than what I am asking to submit). However, you only need to email or text me 1 (one) assignment from each category. I need this information to assign "a grade."

For this week (week of May 11th)

I will need...

- 1 reading assignment (from the list of reading passages I emailed).
- 1 social studies assignment (the one about "goods" and "service")
- 1 science (on "Precipitation")
- 1 word work (from either Tuesday or Wednesday)
- 1 mathematics (The mathematics assignment for Thursday)

And the assigned Razkids book (Basics of Economics, and Service Dogs)

IMPORTANT, IMPORTANT, IMPORTANT

These are the mystery science lessons your child should have completed (in this sequence):

1. Mysteryscience.com *Mapping & Earth's Surface Features*
2. Mysteryscience.com *Rocks, Sand, and Erosion*

Remember, look under School Closure Planning (click second grade).

Also....

If your child has not completed some of last week's assignments, please upload the lessons plans from last week (week of May 4th) so that he/she can stay on track.
